

## Crumpler presents...Bags on Wheels

Rollin' rollin ' rollin', those bags on wheels are rollin'.

The wait is over people. Crumpler has launched their much-anticipated bags on wheels, and perfectly timed too. This chilly winter weather is the perfect reason to grab one of the 3 new bags on wheels and a flight to the sun for a pre-Spring break. Choose from The Period Charmer, The Mock Tudor or The Free Standing Edwardian as your worthy travel companion

These wheely bags, trolley bags, luggage bits, or whatever you choose to call them, are available in 3 sizes and 3 colours and have all the great features that are much revered in their Crumpler counterparts. A combination of quality crafting, durable fabric and quirky accessories make these newcomers unmistakably Crumpler, with the added bonus of wheels!

**The Period Charmer**, weighing in at a mere 4.2kg, is a small piece that can be taken on board, and stowed in the overhead locker as carry on luggage. This little dude more than compensates for his small stature by moonlighting as a photo travel bag. Once he straps in his photo insert, he morphs into his alter ego - "The Cork & Fork"

**The Mock Tudor** 5.4kg is the middle child and is perfect for a very monster weekend away. It's the in-between bag that allows you to take what you need, plus a bit extra, without stretching as far as the kitchen sink!

At 6.85kg, **The Free Standing Edwardian** is the "Big Daddy" of the trio.

If you had to move, with much haste, the entire contents of your life, this is the bag you'd be using as the getaway vehicle. With a capacity to cart 3 slabs of beer, and still have room for the supplementary chips and dips, this is a cavernous beast.

**NOTE: Please refer to appropriate website for local pricing.**

Each bag features a 900 D polyester water resistant outer shell with "arms" that cuddle your bag contents. And thanks to wrap & snap buckles, there's little chance of your smalls making an early exit.

Internally, a 150D Ripstop lining supports a plethora of storage space in the form of stretch mesh and sidewall pockets. There's also external storage for your laptop & travel documents, via 1 easy access side pocket and 1 top-loading pocket. A handy bonus feature is the removable laundry/utility backpack that accompanies each bag. It's a clever little accessory that neatly folds down into a pack, small enough to fit in the palm of a large hand.

With 3 vibrant colourways to choose from – black/gunmetal, blue/orange, brown/orange, there's little danger of losing your luggage on the airport carousel. And lest we forget those wheels – the unique Crumpler designed ultra glide wheels are guaranteed to have you motoring to your next destination.

So, now you've got the perfect travel partner, all that remains is the appropriate getaway destination.

Bon Voyage people!

Bags are available in Crumpler stores now. To view the storage capacity of the trio click on the link below:

-----THE END-----

#### **CRUMPLER HISTORY**

Crumpler is the brainchild of Stuart Crumpler, David Roper & Will Miller who set the company up from meagre Melbourne beginnings back in 1994. Since then, their one store has grown to 8 nationally and Crumpler is now available via a number of speciality retailers throughout Asia & North America.
